

Project Goals

Assess

environmental knowledge
operator training
BMP adoption

Train

water quality concepts
manure characteristics
sampling technique

Demonstrate

agronomic rates
nutrient mining
soil-runoff relationships

Promote

manure use
machinery management
soil and manure sampling
nutrient balancing

Acknowledgments

This project is funded by the U. S. Environmental Protection Agency through a Section 319(h) water quality grant administered by the Texas State Soil and Water Conservation Board.

Project personnel wish also to acknowledge the numerous landowners who have generously made their cropland available to us for manure, soil, and water sampling and for BMP demonstrations.
